Most recently, the Kia Sportage was included in a recall for a fuel pipe problem. According to the automaker, debris from manufacturing could block oil flow to the rod bearings, possibly leading to a fire. As severe as this sounds, one model year of the Kia Sportage had an even bigger problem. The worst model year

The electronic stability control (ESC) light popping on is another common problem found in the Kia Sportage. The ESC function is supposed to stabilize the remaining three tires if one becomes disabled, however, the light is not supposed to be on constantly. In some cases, the vehicle has to have the wiring re-done in order to fix the problem.
