The VFR800 VTEC was launched in 2002 as a replacement to the hugely popular VFR800Fi model, bringing with it the controversial VTEC system and an underseat pipe look. It was refined in 2006 through improved VTEC mapping, clear indicator lenses and the fitment of ABS as standard. This generation of VFR was replaced in 2014 by the new VFR800F, which added traction control, radial brakes and a look inspired by the 1998 VFR800Fi with a side-mounted exhaust instead of the underseat pipe units ...

The VFR800 was phased out after the 2009 model year in the United States, when Honda introduced the larger VFR1200F, but the VFR1200 was not a direct replacement for the VFR800; the true successor is the 2014 VFR800F (RC79). The RC46 model of VFR800 continues to be sold in certain international markets [citation needed]. VTEC valve actuation
