2003 Yamaha Mountain Viper Snowobile

The SX Mountain Viper is Yamaha's trail zipper designed for the mountains. The best of the Viper and Mountain Max lines were melted together to give mountain riders an excellent choice. When AmSnow took delivery of the prototype Mountain Viper from another magazine, the editorial staff dropped the rear suspension (lifted the tunnel) to reel-in more ski pressure. The results of our first ride after these adjustments were rather negative.

Under its "Heat Red" hood is Yamaha's latest generation power-valved triple cylinder 696cc engine. Creating a broad powerband and its new Detonation Control System, the SXViper Mountain creates the performance in a reliable package. On the other hand, the dark blue metallic MM 7 is designed to be a little more nimble for boondocking.
