verified Ford Mechanic. We use cookies to give you the best possible experience on our website.

~~My 2005 Ford Explorer check engine light came on and low ...~~

The check engine light is on because of a fault in the electronic engine control system or the transmission. You can erase the memory of the computer by disconnecting the battery for 1-5 minutes. Turning the headlightswitch on will drain any stored energy when the battery is disconnected. The problem is the light is on for a reason and will come back on as soon as the fault is detected again.

~~How to reset check engine light on 2005 Ford Explorer with ...~~

The first step in troubleshooting the check engine light is to read the fault codes with an OBD-II scanner . Locate the diagnostics port under the dashboard of your Ford. Connect your OBD-II scanner into the diagnostics port. Turn on the ignition by pressing the Start button without pressing the brake pedal.

search. Fuel pressure in your 2005 Explorer is supplied by a high-pressure high-volume fuel pump located in the fuel tank. This pump supplies fuel to the fuel injector rail at a specific pressure to meet the requirements of the engine under most driving conditions. Diagnosing fuel system problems in this vehicle requires the use of a fuel-pressure-test set to verify that the fuel pressure is supplied at the right pressure.
