Three column cash book - Definition, Format and Examples ...

A three column cash book or treble column cash book is one in which there are three columns on each side - debit and credit side. One is used to record cash transactions, the second is used to record bank transactions and third is used to record discount received and paid.

Three column cash book format & examples

The 3 column ledger account provides information on the balance on the account after each debit or credit entry has been posted, for this reason it is often known as the running balance method. This is in contrast to the period balance method in which account balances are calculated only at the end of the accounting period.
