All our resources are designed to meet the requirements of the new 2014 National Curriculum and to help you create a fun and engaging comparing decimals lesson for your Year 4 students.

### Compare numbers with the same number of decimal places

Compare fractions: If denominators are the same you can compare the numerators. The fraction with the bigger numerator is the larger fraction. Example: Compare 5/6 and 3/8. Find the LCD. The multiples of 6 are 6, 12, 18, 24, 30, etc. The multiples of 8 are 8, 16, 24, 32, etc.

### Comparing Fractions-Calculator

3. Compare and order fractions with the same numerator. Remember, the bigger the denominator, the more pieces the whole is divided into, and therefore the smaller each piece will be. So if you have the same number of pieces, by comparing the size of the pieces, you should be able to compare and order.

### 3-Ways to Compare and Order Fractions-wikiHow

EYFS Number - Comparing and Ordering Numbers to 10 - Lesson Activity This activity requires pupils to recognise and order the digit cards from 0-9. This activity can also be extended by asking pupils to select 3 cards and to put them in order.
