between 1600 and 1800 that led up to the Industrial Revolution. It is a term first coined by the Japanese demographic historian Akira Hayami, and accepted by other historians to help further explain the advent of the Industrial Revolution. Much of this theory deals with the spending behaviours of families in the period. It also deals with the production and consumption of goods. In fact, Industrious Revolutions a

A Poor But Industrious People by Richard Hollowell. In many ways Brafield-on-the-Green, a few miles down the Nene Valley from Northampton, was like any other Midlands village in the twentieth century. It was, however, a very poor community, with living conditions far worse than those in neighbouring villages.

Industrial processes - Wikipedia

Being industrious includes working hard with energy, devotion, and diligence.

Some of the most common traits of industrious people include efficiency, perseverance, and a strong work ethic.

These traits are obtainable if you do not currently have them, by developing and sharpening your own industrious traits.
