A trial balance sheet is a report that lists the ending balances of each account in the chart of accounts in balance sheet order. Bookkeepers and accountants use this report to consolidate all of the T-accounts into one document and double check that all transactions were recorded in proper journal entry format .

Trial Balance - Example | Format | How to Prepare Template ...

Trial Balance acts as the first step in the preparation of financial statements. It is a working paper that accountants use as a basis while preparing financial statements. Trial balance ensures that for every debit entry recorded, a corresponding credit entry has been recorded in the books in accordance with the double entry concept of accounting.

Trial Balance | Explanation & Example - Accounting Simplified

The trial balance is strictly a report that is compiled from the accounting records. However, since adjusting entries may be made as a result of reviewing the report, it could be said that trial balance accounting encompasses the adjustment process that converts an unadjusted trial balance into an adjusted trial balance.
