Can someone explain me what's the difference between Iconia W700 and Iconia W700P? I saw datasheets and I spotted that in W700P the SSD drive is Serial ATA/300 (in W700 it's Serial ATA/600... which is better?) and display in W700P is just in CineCrystal technology and not IPS (?). And what about WiFi problems - is W700P a newer model without those problems? Are there any other differences?
