There are three ACS exams for General Chemistry: one for first semester, one for second semester, and one for both terms combined. If you take and pass the combined exam, you will obtain credit for both 1211 and 1212. If a passing score is not earned on the full term exam, you may take the first semester exam. You will obtain credit for 1211 if a passing score is earned.

The synthesis of shape-persistent organic cage compounds by the formation of imine bonds opens the possibility to realize cages of different sizes, geometries, topologies, and functions. It is generally assumed that the imine bond is rather chemically labile allowing a self-correction mechanism until thermodynamic equilibrium is reached, which is often the case if a cage is formed. However ...
