The agent-structure problem is a much discussed issue in the field of international relations. In his comprehensive 2006 analysis of this problem, Colin Wight deconstructs the accounts of structure and agency embedded within differing IR theories and, on the basis of this analysis, explores the implications of ontology - the metaphysical study of existence and reality.

Agents, Structures and International Relations by Colin Wight

Agency is a cross-domain conceptual framework useful for analyzing international political dilemmas. Synthesizing the agency biases across theoretical schools of thought reveals a more comprehensive analytical picture than those viewed through a particular theoretical lens. What is Agency? According to the Merriam-Webster online dictionary, agency, in the context of international relations, refers to the following:

Agency and International Relations: An Alternative Lens

The concept of agency is central to political theory. Political activities are carried out by agents, whose agency inheres in their power to produce effects. In politics, agency is generally reserved for human actors, and, more controversially, it is sometimes attributed only to particular categories of persons.

Agency | political science | Britannica

In the social sciences there is a standing debate over the primacy of structure or agency in shaping human behaviour. Structure is the recurrent patterned arrangements which influence or limit the choices and opportunities available. Agency is the capacity of individuals to act independently and to make their own free choices. The structure versus agency debate may be understood as an issue of socialization against autonomy in determining whether an individual acts as a free agent or in a manner

According to Waltz and other neorealists, the structure of the international system limits the foreign-policy options available to states and influences international institutions in important ways. The United Nations (UN), for example, mirrors the structure of the existing international system insofar as it is dominated by leading powers such as the permanent members of the Security Council.
