These Manuals and Supplements are still the applicable documents for aircraft registered prior to 28th September 2003 unless the aircraft has been modified, rendering the previously approved supplement obsolete. It is possible to upgrade your Flight Manual to the latest EASA Standard. To upgrade the Manual may require a re-certification of the aircraft.

Collectable Aircraft Manuals for sale | eBay

An aircraft is a vehicle that is able to fly by gaining support from the air. It counters the force of gravity by using either static lift or by using the dynamic lift of an airfoil, or in a few cases the downward thrust from jet engines. Common examples of aircraft include airplanes, helicopters, airships (including blimps), gliders, paramotors and hot air balloons.
