Code Books & Guides—Safety Codes Council

The Alberta Building Code 2014 (ABC 2014) directs that fire alarm and fire suppression systems are to be tested or verified after installation. However, there is no guidance within the ABC 2014 as to how the person or company performing the verification is to inform the authority having jurisdiction (AHJ) about the results of the tests. This interpretation applies to all fire suppression systems that are installed in buildings, including, but not limited to: 1.
