ALLIANCE THEORY: A NEOREALIST FIRST CUT By Glenn H. Snyder One of the most underdeveloped areas in the theory of international relations is alliance theory. Traditional theorists have tended to treat the subject as ancillary to broader topics such as "system structure" or "balance of power."1 Statistically oriented scholars have been more

ALLIANCE THEORY: A NEOREALIST FIRST CUT

Alliance, in international relations, a formal agreement between two or more states for mutual support in case of war. Contemporary alliances provide for combined action on the part of two or more independent states and are generally defensive in nature, obligating allies to join forces if one or more of them is attacked by another state or coalition .

Alliance - Encyclopedia Britannica | Britannica

alliances create interdependence between autonomous economic units, bringing new benefits to the partners in the form of intangible assets, and obligating them to make continuing contributions to their partnership. Different alliance forms represent different approaches that

Neorealist theory makes a few assumptions about the system, the interests and motives of the actors within it and the constraints that all states face, which ultimately lead to behaviours such as balancing. The first assumption is that international order is anarchic, which is a primary cause of the balancing behaviour of states.

Balancing (international relations) - Wikipedia

There is little disagreement over the proposition that the concept of alliance is central to international relations theory. In the realist view, "the historically most important manifestation of the balance of power . . . is to be found . . . in the relations between one nation or alliance and another alliance" (Morgenthau,
