Ami began in 1909 as the National Automatic Music Co, making automatic player pianos. Having designed a mechanism which allowed music rolls to be selected, this was adapted for use in phonographs, the first of which was produced in 1927. The mechanism used was the first that could play both sides of 10 records, allowing 20 selections.

This is about the restoration of an Ami Continental 2. The jukebox was broken when I got it. The amplifier didn't make any sound and the mechanism did not move. A relais started rattling whenever the box was powered. The coin acceptor unit was missing and the credit unit severely damaged. The wood of the box was partly damaged by water. And the ...
