primary care space. In June 2014, Odyssey – a leading New Zealand AOD treatment provider – was contracted by the Health Promotion Agency to design and implement an 18-month demonstration programme to work alongside primary care professionals in the New Lynn area of West Auckland. Odyssey self-funded the remaining half of the programme. 11.

Odyssey Primary Care Demonstration Programme
Odyssey is an innovative and flexible clinical decision support solution, which enables non-clinicians and clinicians alike to assess the urgency of a patient ' s symptoms and direct them to the most appropriate care. Odyssey can be used on a mobile phone, tablet or web site by patients to perform their own self-assessment, and by clinicians and non-clinical staff on PCs and laptops to help prioritise and direct care.

Clinical Decision Support | Advanced
The pressures of the pandemic threaten network development In 2019, general practices in England came together to form 1259 primary care networks. NHS England sees these networks as a route to improving collaboration between general practice and other community based providers, expanding the multidisciplinary workforce, and becoming the building blocks for integrated care systems as part of ...
