The authors of the first edition of Anesthesiology Keywords Review, published by Lippincott Williams & Wilkins, thus faced a difficult task: To successfully tread the line between conciseness and detail, while also somehow differentiating their text from the reviews already in existence. To this end, they take a somewhat different approach: The work is in large part written by residents of the editor 's home program, based on an internal project designed as a tool for resident education ...

Anesthesiology Keywords Review | Anesthesiology ...

Modak's Anesthesiology KeywordsReview is a new addition to the ever-growing collection of anesthesiology board review books. The editors of this 512-page text have taken common keyword topics and indexed them in multiple categories to allow the reader to study these topics in a manner analogous to the way they are encountered during residency training.
