### Electronics - Logic Gate Worksheets and Answers | Teaching -

Some students with background in computers may ask if Boolean is the same as binary. The answer to this very good question is " no. " Binary is simply a numeration system for expressing real numbers, while Boolean is a completely different number system (like integer numbers are too irrational numbers, for example). It is possible to count arbitrarily high in binary, but you can only count as high as " 1 " in Boolean.
