Applescript Guide

This document is a guide to the AppleScript language—its lexical conventions, syntax, keywords, and other elements. It is intended primarily for use with AppleScript 2.0 or later and macOS version 10.5 or later. AppleScript 2.0 can use scripts developed for any version of AppleScript from 1.1 through 1.10.7, any scripting addition created for AppleScript 1.5 or later for macOS, and any scriptable application for Mac OS v7.1 or later.

Introduction to AppleScript Language Guide
