## **Aquaculture Principles And Practices Fishing**

Freshwater aquaculture is carried out either in fish ponds, fish pens, fish cages or, on a limited scale, in rice paddies. Brackishwater aquaculture is done mainly in fish ponds located in coastal areas. Marine culture employs either fish cages or substrates for molluscs and seaweeds such as stakes, ropes, and rafts.

## **4. AQUACULTURE METHODS AND PRACTICES: A SELECTED REVIEW**

Aquaculture is the farming of aquatic organisms such as fish, crustaceans,

# Download Free Aquaculture Principles And Practices Fishing

mollusks, and aquatic plants. Aquaculture involves cultivating freshwater and saltwater populations under controlled conditions, and can be contrasted with commercial fishing, which is the harvesting of wild fish. Successful aquaculture takes into consideration the biology of the aquatic species such as feeding, water flow and temperature needs, and disease prevention and engineering design like water source and water ...
