ASK THE VET: Fat cats and dogs can develop diabetes by Lee Pickett, VMD | November 9, 2020 at 1:49 a.m.

ASK THE VET: Fat cats and dogs can develop diabetes

If your dog has glassy eyes, you may be wondering why your dog's eye appearance has changed. We are used to seeing our dogs with eyes that look bright and healthy, therefore a glassy-eyed appearance in our dogs is often suggestive of something not right. So follow your gut and have your glassy-eyed dog see the vet.

Ask the Vet: Why Do Dogs With Heart Failure Cough?

70% of pet concerns can be resolved without a visit to the vet. Ask.Vet can help you with questions about your pet's health and behavior, and our comprehensive triage process can determine the seriousness of the situation and tell you when you need to make an appointment to see a vet in person. Get Started.

Dogs reverse sneeze because their bodies are reacting to something in their environment. Reverse sneezing in dogs is something dog owners may not fully understand, causing them to sometimes panic and perhaps even make an emergency phone call to the vet. "Help, my dog is choking, he's acting as if there is something stuck in his throat!

Ask the Vet: Why Do Dogs Reverse Sneeze?

Ask the Vet features pet owner questions about various pet health topics including submissive urination in dogs, and more answered by Dr. Dym. 1-800-738-6337 My Account

Ask the Vet: Submissive Urination in Dogs | 1800PetMeds®

Unfortunately, it does happen, and while this is stressful for both dog and owner, there are some questions to ask your vet before dog surgery. Not only will this set your mind at rest about the procedure, but it will also give you the opportunity to find out more about what is going to happen to your furry friend.

Questions to Ask Your Vet Before Dog Surgery

Ask the Vet: Turn Away From a Dog Jumping on You. A dog will jump on you for attention. Teach him what to do instead. (virgmos/Shutterstock)
