25 mechanical engineering interview questions and answers ...

The piping system is electrically insulated by what is called a sacrificial anode. A bag of readily corrodible metal is buried in the ground with a wire running from the pipe to the bag so that the sacrificial anode will corrode first. If any electrical current charges the pipe, it also serves as a ground. 22.

Mechanical Interview Questions - Freshersworld

Specific role-related questions. Example: "Describe the process of laying a wind turbine on the ocean floor". What the interviewer is really asking: They want to see evidence that you have basic technical knowledge of the field. Show them that, if sent out to a work site tomorrow, you'd be able to handle yourself.
