Text: E. J. Lemmon, Beginning Logic (with supplementary material later) The book sounds as if it was written for British schoolboys around the turn of the century, to sit beside leather-bound books on rhetoric and Latin grammar. The tone may be off-putting, but the book has the right level. It does not assume any mathematical background.

Lemmon, E J - AbeBooks

Moral dilemmas, or moral conflicts, present a leading problem in Ethics. Ross calls them the problem of conflicting prima facie moral obligations. Lemmon calls them "moral dilemmas", and Sinnott-Armstrong in his recent book discusses them thoroughly and provides extensive references to relevant literature.

Moral Dilemmas, Compromise and
Compensation | Philosophy ...

In "Beginning Logic" by E.J.Lemmon, Page 126, Theorem 118 (1994 Reprint) a "somewhat surprising" inter-derivability result in Predicate Calculus is proved: $((\exists x H x) \supset P) \supset \exists x (H x \supset P)$ where Hx is a one place predicate and P is a zero place predicate.
