with their own frequency selection knobs. They even have dual channeling capability, making two DME frequencies available to you at all times - one remote with one stored internally. So what you have, in effect, is a functional DME Hold Mode.

KN 62A Panel Mount DME - BendixKing

The TSO'd KN 63 is a complete 100 watt, 200-channel remote DME system utilizing Large Scale Integrated (LSI) circuit technology. Offering significant advantages in DME reliability and performance, the KN 63 is

all solid-state (no transmitter tubes) and can be installed with either single or dual panel indicators.

KN 63 Remote Mount DME - BendixKing

The KN 62A and KN 64 have an audio output for use in identifying the DME ground station being received. The audio level is preset at the factory, but may be easily adjusted through the top cover. The unit electronically converts to distance the elapsed time required for signals to travel to and from the ground station.

During the Bendix and King merger (i.e. Bendix/King), a new part numbering system was created that converted these 9 digit part numbers to 12 digits. Therefore, 066-3056-01 became

Download File PDF Bendix King Kn 64 Dme Manual

066-03056-0001. Despite this numbering change, units that were originally from the King Radio design still have the 9 digit part number format on the unit dataplate.
