Physicians can be better doctors by being patients. Kevin R. Campbell, MD | Physician | December 31, 2012. Physicians are terrible patients. That fact is one of the few absolutes in medicine. I can remember developing an acute appendicitis as a medical student. I remember the fear, the uncertainty and the discomfort.

Nurses often know better the patients better than the doctors because they spend more time with the patients and are often first to gather information from them. They are the ones who advocate for you if the doctor recommends a medication you're allergic to, or a procedure that your medical history puts you at risk for.

Doctors who disrespect nurses disrespect the medical profession—different, but never better. A perennial debate on Twitter is whether nurses should substitute for GPs on the basis that they are better and less expensive than doctors.

*Are nurses better than doctors? | The BMJ*

Sometimes patients have to reorganise and retrain clinicians to receive the high quality healthcare that is in our best interests.<sup>2</sup> We both have Parkinson's disease and experience a complex array of motor and non-motor symptoms. Here is a glimpse at the invisible work that, in our experience, leads to better care.

*Patients organise and train doctors to provide better care ...*

A study published in Annals of Family Medicine found that patients who assigned their doctors high ratings for listening to their concerns, offering easy to understand explanations and showing respect for their needs were in better health than those whose doctors had lower scores. In short, stronger doctor-patient relationships were associated with better health.
