Pathology of Bone Marrow and Blood Cells

There are many types of bone marrow diseases, such as leukemia or diseases that affect the production of blood cells or platelets. Your bone marrow can also be involved by lymphoma or plasma cell disorders. Cancers from other parts of the body can also spread to the bone (this is called a metastasis).

BONE MARROW PATHOLOGY FOUCAR PDF - 4ma PDF

Although mantle cell lymphoma (MCL), has been well described in lymph nodes, involvement of blood and bone marrow has not been well defined. The authors reviewed involved blood and marrow specimens from 13 patients with MCL to determine patterns of infiltration. These findings were compared to marrow involvement by follicular small cleaved cell lymphoma (SCCL) and small lymphocytic lymphoma (SLL).
