## Brexit Environment And Climate Change

The UK has traditionally been a driver for more ambitious climate policy at the EU level and Brexit could slow down the EU ' s progress. At home, however, there are concerns that Brexit negotiations will divert attention from it and that the lack of external pressure from the EU will allow the government to weaken climate regulations.

Brexit and the Environment – An opportunity for change  
Although Brexit undoubtedly presents many risks to the environmental law currently safeguarding the UK ' s wildlife and habitats, it also provides the Government with the opportunity to become a world-leader on environmental protection.

---

The environmental impact of Brexit | ClientEarth

UK environmental policy has been profoundly shaped by EU membership, and Brexit raises wide ranging implications for the shape and ambition of UK environmental governance. Many in the environmental sector expressed concern that Brexit would herald weaker environmental and food safety standards, especially if the government privileged a trade deal with the US over one with the EU.
