Rail buggies or dune buggies are a long-standing favorite toy of desert goers. Used to drive over dunes, rough or muddy terrain and rocky landscapes, rail buggies are light and fast stripped down versions of cars that consist of nothing more than the frame, tires, engine, steering wheel and a couple of seats.

How to Build a Front Engine Rail Buggy | It Still Runs

And since most dune buggies are custom-built, the uniqueness factor is a draw for many buyers. Sand rails are usually built from scratch. But some are more car-like than others -- it's usually a good idea to make sure the one you're looking at has lights and secure seats. That said, here are some things to keep in mind:
