~~Cable Design Guides — CmaCable~~

NEMA VE 1 - This standard specifies the manufacturing requirements for metal cable trays (such as; channel cable tray, ladder cable tray, single-rail cable tray, wire mesh cable tray, solid bottom or nonventillated cable tray and trough or ventilated cable tray) and associated fittings for use in accordance with the rules of the National Electrical Code.

~~Codes and Standards — Cable Tray Institute~~

In addition to specifying components for a cable assembly, you need the design and production process to promote overall system integrity and be cost-effective. Tweet You probably know the primary benefit of a cable assembly - the ease of connecting and disconnecting systems or equipment either for mobility or expeditious repair and replacement.
