Cases In Field Epidemiology A Global Perspective [EBOOK]

When a new infectious disease is discovered, scientists called epidemiologists work with other scientists to find who has it, why they have it, and what CDC can do about it. From the beginning of the COVID-19 outbreak, scientists at CDC and around the world have been working to identify the source, monitor and track the disease, study the disease and develop guidance for actions to slow the ...

About COVID-19 Epidemiology | CDC
The Masters in Field Epidemiology will prepare graduates for careers responding to animal health disease outbreaks. This project-based program will focus on applied epidemiological skills such as: ...
