Teachers often assign cell analogy projects for this reason. A cell analogy project requires a real-life place or object in place of a cell that describes how the place's or object's components are like those of a cell. Cells are Like Schools The hard exterior of a school building keeps it standing like a cell wall does in a plant cell.

Cell Membrane. The third common thing between plant and animal cells is a cell membrane. Even though the cell membrane that surrounds the cell is very thin, it is able to limit what can enter or leave the cell. As we mentioned before there is one great different between plant and animal cells. Only animal cells have a cell wall.
