The reform of teacher education has been a focal point of state action in industrial countries since the early 1980s. Given this convergence of educational and governmental activity, the studies presented here are a significant departure from conventional discourse on reform, because they explore the ways that social regulation and political power operate through the proce

Changing Patterns of Power: Social Regulation and Teacher ...

The simplest type of one-directional change is linear, occurring when the degree of social change is constant over time. Another type of social change is that of exponential growth, in which the percentage of growth is constant over time and the change accelerates correspondingly. Population growth and production growth are known to follow this pattern over certain time frames.

Social change - Patterns of social change | Britannica

Reforms in teacher education involve complex sets of interactions among and within social institutions. These interactions help shape power relations and patterns of social regulation that operate through state, university, and school interactions.

Changing Patterns of Power - SUNY Press

Patterns of Change power by reinforcing the existing organizational structure (Pfeffer, 1981). Thus, a change in structure may necessitate a change in the distribution of power, and vice versa. Although minor, incremental changes in power and structure may occur gradually over long periods of time, the likelihood

Changing Patterns or Patterns of Change: The Effects of a ...

Social change can evolve from a number of different sources, including contact with other societies (diffusion), changes in the ecosystem (which can cause the loss of natural resources or widespread disease), technological change (epitomized by the Industrial Revolution, which created a new social group, the urban proletariat), and population growth and other demographic variables. Social change is also spurred by ideological, economic, and political movements.

social change | Definition, Theory, & Examples | Britannica

At least three important trends affect how power relations are experienced in today's world. First, c hanging patterns of globalization have also changed the territorial or spatial relations of power, meaning that power increasingly must be understood not only at the local, the national, or the global level, but also in their inter-relationship.
