CHAPTER 5. Advanced SQL. Practice Exercises. 5.1 Describe the circumstances in which you would choose to use embedded SQL rather than SQL alone or only a general-purpose programming language. Answer: Writing queries in SQL is typically much easier than coding the same queries in a general-purpose programming language. However, not all kinds of queries can be written in SQL. Also, not all declarative actions such as printing a report, interacting with a user, or sending the results of a query to a graphical user interface ...
