If the rear axle begins to show signs of wear, you will first experience poor driving performance. The Citroën Berlingo has a robust rear axle, but it is badly affected by the weather, just like most chassis of this type. As soon as the rear axle makes disturbing noises, it is certainly too late and simple maintenance is not enough.

A Citroen Berlingo rear axle repair kit will include replacement bearings and bushings for the swingarms. When play on the rear axle is discovered at an early stage a repair kit can be a usefull investment. However replacing the bearing is a time consuming job and if there's too much wear a replacement will still be necessary.
