## Read Online Comparative Linguistics

Comparative linguistics is the scientific study of language from a comparative point of view, which means that it is involved in comparing and classifying languages.

### ~~Comparative and Historical Linguistics~~

In general linguistics, the comparative is a syntactic construction that serves to express a comparison between two (or more) entities or groups of entities in quality or degree - see also comparison (grammar) for an overview of comparison, as well as positive and superlative degrees of comparison.. The syntax of comparative constructions is poorly understood due to the complexity of the data.
