Theories of crime such as classical, neoclassical, biogenic and psychogenic. The psychological perspectives are also examined and contrasted with current views and case scenarios. It is well explained and touches specific subjects such as juvenile delinquency while presenting the pros and cons of past and current. This is a great textbook because it offers traditional and contemporary viewpoints of criminology.

The authors explore the crime problem, its context, and causes of crime. The organization of the text reflects the fact that the etiology of crime must be at the heart of criminology. It examines contemporary efforts to redefine crime by focusing on family violence, hate crimes, white-collar misconduct with violent consequences, and other forms of human behavior often neglected by criminologists.
