ISO - ISO 17972-4:2018 - Graphic technology - Colour data ...

Color Exchange Format. A standard file format for color exchange. People in the business of exchanging color information need a reliable method to describe color data in a format for transmission between two parties. The file format will exhibit these features: The Cxf format accommodates a wider range of color data in a more-easily-used way, that takes advantage of the strengths and universal acceptance of XML (Extensible Markup Language), as compared to the earlier CGATS-formatted text files.
