Defense against the Black Arts is another in the line of hacking overview books that started with the first edition of Hacking Exposed. Like Hacking Exposed , the book walks the reader through the process of how to use hacking tools and how to make sense of their output.

~~Book Review: Defense Against the Black Arts - Slashdot~~

Defense against the Black Arts is written for the reader with a good technical background who is looking for a nuts and bolts approach to ethical hacking. Its 14 chapters provide a comprehensive overview of the topic, with an emphasis on Windows. But for those looking for an introductory text, this is not the best choice out there.

~~Book Review : Defense against the Black Arts~~

The Defence Against The Dark Arts post at Hogwarts School Of Witchcraft And Wizardry was a cursed one. As such, for every year that Harry attended the school, the audience was introduced to a brand new professor who put their own spin on proceedings.

"If there ever was a book that should not be judged by its title, Defense against the Black Arts: How Hackers Do What They Do and How to Protect against It, is that book. Even if one uses the definition in The New Hackers Dictionary of 'a collection of arcane, unpublished, and (by implication) mostly ad-hoc techniques developed for a particular application or systems area', that really does not describe this book.
