Our planet is fragile, and in his just-released book, “Design for a Vulnerable Planet,” Dean Fritz Steiner of the School of Architecture at The University of Texas at Austin tells us why. Urbanization and population growth contribute to our frailty; however, so do unlimited resources and a vast overuse and misuse of natural

Or perhaps you plan to design the fictional planet first and then worry about how your characters inhabit the planet later. You should consider the physical aspects of the planet as well as the species that live on the planet. You should also decide on the rules of the planet and how the fictional planet is going to function in your story.
