Station design principles for Network Rail

Between 1960 and 1968, every service station to be built had one thing in common: it wanted to show off. Bold architecture built next to or even above the road. A choice of fine restaurants often with balconies or viewing platforms so guests can admire the wonder of the motorway era. They were places to enjoy. "This is a matter to which we are devoting a great deal of attention." John Hay MP ...
