Discharge Planning Guide For Nurses 1e PDF

Discharge planning nurses may not have been working directly with the patient during their stay at the hospital. Therefore, this nurse must work closely with the patient's doctors and nurses to ensure that there is a plan for discharge and that everyone involved knows what they are.

Patient Care: The Nurse's Role in Discharge Planning ...

What Is Discharge Planning? Medicare states that discharge planning is "a process used to decide what a patient needs for a smooth move from one level of care to another." Only a doctor can authorize a patient's release from the hospital, but the actual process of discharge planning can be completed by a social worker, nurse, case manager, or other person. Ideally, and especially for the most complicated medical conditions, discharge planning is done with a team approach.
