The Gonz\u00e1lez-Alvarez House purports to be the city's oldest
Spanish colonial home from the 1600s. According to the National
Park Service. "The original home was a one-story rectangular-
shaped stone dwelling with thick coquina walls that were plastered
with lime and whitewashed. Covered by a hipped roof shingled with
wood, the home's two large rooms had tabby floors (a mixture of
shells, lime, and sand) and large windows without glass."

Colonial American House Styles Guide From 1600 to 1800

Online Library Early American Houses With A Glossary Of Colonial Architectural Terms

Early American Houses includes over 100 photographs and illustrations that highlight the architecture of young America, with a particular focus on the Tudor and late Gothic styles that ultimately shaped the distinctive house designs of today. Original floor plans and sketches abound — including interior and exterior treatments, elevations, and framing — partnered with detailed descriptions that breathe life into each construction.

Early American - Home Page

American historic carpentry is the historic methods with which wooden buildings were built in what is now the United States since European settlement. A number of methods were used to form the wooden walls and the types of structural carpentry are often defined by the wall, floor, and roof construction such as log, timber framed, balloon framed, or stacked plank. Some types of historic houses are called plank houses but plank house has several meanings which are discussed below. Roofs were almos
