Epiphany | Psychology Today

An epiphany (ih-FIH-fah-nee) is a sudden realization that changes a character's worldview. Epiphanies tend to be revelatory, as they allow characters to see information in a different or clearer light. They also enable characters to view the past with a new perspective.

Epiphany in Literature: Definition & Examples | SuperSummary

Elise Ballard did and was so stunned by its effect on her life that she started asking others if they had ever experienced these kinds of breakthroughs. What began as simple curiosity led to an unexpected and exciting journey, spanning several years and the breadth of human experience. The result is Epiphany, a collection of more than 50 revelations that changed lives--and the lives of others--forever.
