Evidence-Based Treatment Planning for Social Anxiety ...

Several evidence-based treatments for substance abuse are described in this book, but evidence-based treatment planning requires research on client – treatment matching; that is, what works best, most importantly, for whom? To meet the standards for evidence-based treatment planning, research would have to show that a specific set of defined client characteristics consistently predicted better outcomes with one specific " matched " treatment versus another " mismatched " treatment.

Evidence-Based Treatment Planning for Disruptive Child and ...

The health information pages for specific disorders on the NIMH website list some of the evidence based therapies for those disorders. One goal of establishing an evidence base for psychotherapies is to prevent situations in which a person receives therapy for months or years with no benefit. If you have been in therapy and feel you are not getting better, talk to your therapist, or look into other practitioners or approaches.

NIMH » Psychotherapies

If your symptoms are moderate to severe, you'll probably be entered into a treatment process known as a care programme approach (CPA). CPA is essentially a way of ensuring that you receive the right treatment for your needs. There are 4 stages: an assessment of your health and social needs; a care plan — created to meet your health and social ...
