Exploring developmentally appropriate practice. "Developmentally appropriate practice requires both meeting children where they are—which means that teachers must get to know them well—and enabling them to reach goals that are both challenging and achievable." As a practitioner caring for children, it is your responsibility to seek out and intentionally plan the best opportunities for children that support their over-all well being and healthy development.

Exploring the inside and outside world — with supervision, of course — is important for toddlers' emotional, social, and physical development. They learn more about the world and how it works. It's one thing to see an orange, but it's another to hold it in your hand, feel its cool, smooth surface, smell its fragrance, maybe even taste it.
