Family-centred care is a multifaceted concept that has evolved over the past 60 years and remains a significant concept for children ' s nursing in the 21st century. The concept embraces caring for the child in the context of the family and therefore nurses recognise the central role of the family in the child ' s life.

~~Family-centred care | Nurse Key~~

Describes how a family-centered approach can be used across the child welfare service continuum—from preventing and responding to child maltreatment and supporting and preserving families to out-of-home care, permanency, and adoption. Engaging families Focuses on understanding, engaging, and partnering with families, including children, youth, and fathers and paternal family members, in child welfare services. Family-centered casework practice

~~Family-Centered Practice - Child Welfare Information Gateway~~

Family-centred service is made up of a set of values, attitudes, and approaches to services for children with special needs and their families. Family-centred service recognizes that each family is unique; that the family is the constant in the child's life; and that they are the experts on the child's abilities and needs. The family works with service providers to make informed decisions about the services and supports the child and family receive.

~~Support for families | Rainbow Trust Children's Charity~~

Family-centred care means involving the family as much as possible in the daily care and routine of their baby. Many neonatal units now care for babies and families in this way, and Bliss work to help them do this through the Bliss Baby Charter. At first, it can be hard to know what you can do for your baby on the neonatal unit.
