STSTCSOLD&A | The United Federation of Planets - Ship Recognition Manual. THE UNITED FEDERATION OF PLANETS AND ITS STARFLEET possess the most high-tech and powerful ships among all of the three major "superpowers" in the old FASA Star Trek game universe. Strangely, I don't think the Federation recognition manual is as well written as the Klingon manual, and I also don't think the ship designs are quite as good.

THE ROMULAN SHIP RECOGNITION MANUAL WAS THE
LAST of the recognition manuals to be
produced by FASA. It covers the third most
powerful of the three great Trek superpowers
of the Kirk era (the other two being the
Klingons and the Federation .) I first
obtained my copy of the Romulan book via mail
order in 1989, and from the outset it seemed
clear to me that the Romulan manual was the
product of a license in decline.
