Fire In The Valley The
Fire in the Valley is
the definitive history
of the personal
computer, drawn from
interviews with the
people who made it
happen, written by
two veteran computer

writers who were there from the start. Working at InfoWorld in the early 1980s, Swaine and Freiberger daily rubbed elbows with people like Steve Jobs and Bill Gates when they were creating the personal computer revolution.

Fire in the Valley: The Birth and Death of the Personal ...

Fire in the Valley is one of the seminal books on the history of personal computing and still has value. Over time, most books on the subject have tended to focus on the chosen few who have become household names

(especially Jobs and Gates), but at the time when this book was first written, it was not yet obvious who would be canonized in the long run.

Fire in the Valley: The Making of the Personal Computer by ...
Fire in the Valley is

the story of their efforts, and in particular, the contributions of an informal think tank called the Homebrew Computer Club. Its technically gifted community, comprising sci-fi aficionados and Berkeley counterculturists, believed computers

could usher in an age of human empowerment, perhaps even a utopia.

Fire in the Valley: The Making of The Personal Computer ... The blaze, dubbed the Valley fire, was the nightmare scenario many had

feared: a roaring wildfire chewing through vast stretches of the back country amid searing record-high temperatures, forcing...
