Once the transmission itself was all buttoned up, we turned to the valve body. After splitting it apart, we turned to the instructions for the Sonnax Zip Kit for the 6R80, which replaces many of the valve body parts and corrects pressure loss issues in several of the valve body’s circuits, with easy installation — or so we thought.

At the same time the D2 passage was eliminated, some not-so-obvious changes took place to the valve body. In the earlier 6R60/75/80 hydraulic system without the one-way clutch, the manual valve can be in any position to apply the low/reverse D clutch (figure 5). The pump supplies line pressure to the D1 and D2 regulator and latch valves.

6R80 Ford began using the ZF6HP26 transmission in the 2005 Ford Expedition and Lincoln Navigator with the 5.4L engine. In subsequent years, this transmission, known as the 6R60/75/80, began showing up in Explorer, Mountaineer, F150, and Mustang vehicles. The 6R60/75/80 automatic transmission provides six forward speeds using these components: • a four-element torque converter which houses a ...

Ford has made some changes to the '15-later 6R80 valve bodies that you'll want to note to prevent any interchange and drivability problems. Following are some of the key identifiers and details on the one valve lineup change to help keep you building successfully. Valve Body Casting Identification

**Spotting the Changes to Ford 6R80 '15-Later Valve Bodies ...**

Identification It is difficult to identify a 6R60 from a 6R75 or 6R80 without disassembling the valve body because all three look identical from the outside. To correctly identify the transmission/valve body type that you require, look on the Vehicle Certification Label, located on the driver's door. Find the code letter/number under the "TR".

Re: Ford 6R80 by ashford » Sun Sep 27, 2015 4:03 am i just stumbled across something, the 2011mustang does not have a mechatronic unit, it has 5 shift solenoids, tcc and line pressure solenoids. i do not know what years and models do not but this looks more promising

**Megasquirt Support Forum (MSEXTRA) • Ford 6R80 (View topic)**

he 6R80 has been around since 2009 and, while similar to the 6R60, there are some differences. Let’s start by defining some terms: the term solenoid body refers to the valve body. This transmission has a valve body, a hard-wired harness, and seven solenoids. The tag on the side of the transmission says “Sol Strategy and Sol Body ID.”

**LET'S PLAY BALL CONTROLLING 6R80**

In this issue of GEARS, we’re going to delve into the Ford 6R80 transmission and discuss some of the more recent and major changes that have taken place. Ford began using the ZF6HP26 transmission in the 2005 Ford Expedition and Lincoln Navigator with the 5.4L engine. In subsequent years, this transmission, known as the 6R60/75/80, began showing up in Explorer, Mountaineer, F150, and Mustang ...
