design plan, as long as it is added to the symbols list included with the plan.

Electrical design plans may be included as a separate document within a complete set of building plans. To identify the electrical plans, each page of the electrical design plan is labeled and numbered: E. 1, E. 2, E. 3, and ...

Electrical Plan Design

The service terminates in the building's main electrical room which is centrally located in the basement level. At the unit substation which consists of a main service breaker-disconnect, a 750 kVA delta-wye transformer, secondary breaker, and secondary switchgear distribution section, the main service is stepped down from a three-phase 4,160V delta to a 480/277V wye configuration.
